Draft Fact sheet for final documentation package RG 082516.docx

Michelle / Jason,

I'm only replying to you two with my comments. I didn't find any incorrect info from technical viewpoint. But I made some suggestions in an effort to reduce the chances some statements could be misinterpreted, or I tried to make them more specific. I know it's a non-technical public document but I tried to eliminate some grey areas.

Ryan

Fruitland team,

Please take a last review of this fact sheet for the residential package. It's undergone some revision and reorganization since you saw it last. JIC folks, please review for how it reads. Also, it will be translated into Spanish.

Jason and Ryan,

Please review for factual correctness, especially as it pertains to work conducted, a specially the indoor work. Keep in mind, it is for the public so language is simplified rather than technical.

I know everyone is busy, but I'd really like to get this out to the UC ASAP. We have a call tomorrow late afternoon and it would be great to be able to hand this over for their review and work toward getting these packages out next week...

Thanks so much. If you are too busy or don't need to review, please just shoot me an email back so I know.

Thanks a bunch!!
